- **\$40 Health Fair Panel (CBC included)**

Chemistry profile consists of tests that measure your cholesterol, triglycerides, glucose, thyroid, iron, electrolytes, minerals, uric acid, liver and kidney functions. Complete blood count of white cells, red cells and platelets. Helps screen for anemia, and the person's ability to fight infection and disease.

- **\$25 PSA**

Screening test for prostate cancer and other noncancerous diseases. Recommended for men over the age of 50 or over the age of 40 with a family history of prostate cancer.

- **\$30 Hemoglobin A1C**

Average view of blood glucose values for a 3 month time period.

- **\$40 Anemia Profile**

Detects and monitors Iron deficiency anemia.

- **\$50 Thyroid Function Panel**

TSH, Free T4, and Free T3. Thyroid Panel for detectors of thyroid disorders. Indicate possible hyperthyroidism or hypothyroidism.

- **\$40 Vitamin D (send out)**

Useful to determine deficiency or toxicity of this vitamin. Can be used to monitor replacement therapy.

****Don't Forget****

- **For best results no food or drink except water for 10-12 hours prior**
 - **Drink plenty of fluids throughout the day before**
- **If you can't attend one of these dates the CCMSD Lab will be able to draw blood on MONDAY April 8th, 15th, 22nd 7:00 am to 9:00 am**
